The Reelmaster 5010-H utilises a Kubota 24.8 hp diesel engine in concert with an in-line motor generator and a self-recharging 48-volt battery pack to provide seamless power to the vehicle and cutting units. The combination of these two power sources comprises Toros patented hybrid power delivery system called PowerMatch. PowerMatch enables the Reelmaster 5010-H to match the power generated to the power required for all cutting conditions.
