Description

2026 Variant 2517 F3 2500 kg Freezer Trailer
Sub-zero capability. Tow-behind flexibility.

Full freezer temperatures — not just chilled, frozen. Ice cream, frozen seafood, pharmaceutical cold chain, frozen meat for remote delivery. You get freezer capacity in a trailer that unhooks at the delivery point and comes home with your vehicle.

Full freeze-down. Consistent temperature.
The insulation and refrigeration unit maintain freezer temperature throughout transit — built to hold temperature, not just delay heat transfer.

KNOTT mechanical overrun brakes — no brake controller, no wiring, no compatibility checks between vehicles.

Danish-designed. RVSA 2023 compliant. Ready to register.
