## Description

**2026 Variant 2015 M2 2000 kg Machine Transporter Trailer**
Move the machine. Get back to work.

1,394 kg of payload on a platform designed for earthmoving and construction equipment. The loading height, deck width, and ramp configuration are built around what you are actually putting on it — not what fits in a catalogue description.

**Low loading height. Rear ramp loading.**
Most compact machinery rolls on without a loading dock. Rear ramp drops, your machine drives on, gas struts hold it in position. Fast, predictable, doable solo.

**KNOTT mechanical overrun brakes — no brake controller, no wiring, no compatibility checks between vehicles.**

**Hot-dip galvanised. KNOTT Parabolic Leaf Spring. LED lighting.**

Danish-designed. RVSA 2023 compliant. Ready to register.
