Description

MINI EXCAVATORS - 2023 Kobelco SK35SR The SK35SR is built to maximise performance in the 3.5T class. The boom, arm and swing bracket all have large cross-section segments for added attachment strength. Ensures durability and reliability over the life of the machine, and maximising resale value. Like all Kobelco mini excavators, the SK35SR comes with a standard 4 year/4,000 hour Full Machine Warranty. Digging performance is outstanding, with a multiple pump flow-sharing system providing pump flow of 38.4 L/min and pressure of 23.0 MPa (relief valve setting), maintaining ample power for any task at hand. Energy Conservation Mode equipped with S mode, which lowers fuel consumption by up to 25% over previous models. The SK35SR includes Kobelcos exclusive iNDr cooling system reducing heat, noise and dust penetration with a short tail swing to allow operators to work in tight spaces. The SK35SR has standard factory fitted quick hitch piping, colour LCD monitor and more digging power. It also features a unique blade design which prevents earth from falling behind the blade, by curling it forward as it cuts. The dozer lever features hydraulic pilot control for precise control. Start-up checks are essential for safe and reliable machine operation. All start-up checks can be performed at ground level, with an easy-to-understand layout and cover design that simplifies access and saves time.
