## Description

### 2026 Variant 1304 F1 Tip 1350 kg Combi Trailer RFS

Versatile. Compact. Ready for whatever comes next.

Close the sides and it is an enclosed box. Drop them and it is a flatbed. 1,041 kg in a manageable footprint that tows behind most mid-size vehicles and parks where a full-size trailer will not go.

**KNOTT mechanical overrun brakes — no brake controller, no wiring, no compatibility checks between vehicles.**

#### Hot-dip galvanised steel.

The protection goes into every seam and weld — not sprayed over the outside after the fact. It will not rust in the yard between jobs or corrode near the coast.

Danish-designed. RVSA 2023 compliant. Ready to register.
