Description

BUILT TO HANDLE MORE. READY TO PERFORM. New Isuzu FVZ 260-300 – Power, Payload and Productivity The Isuzu FVZ 260-300 is built for operators who demand serious performance without compromising on comfort or ease of driving. With a powerful 6x4 platform and smooth automatic transmission, this heavy-duty truck delivers outstanding capability while reducing driver fatigue and maximising efficiency. Perfect for high-demand environments, the FVZ 260-300 keeps your business moving with proven reliability and low operating costs.

Vehicle Overview Designed for heavy-duty workloads, the FVZ 260-300 Automatic combines strong engine performance with an advanced automatic transmission for seamless operation. It is ideal for applications where productivity, ease of use and durability are critical. Built tough for Australian conditions, this truck is ready to go straight to work.

Key Features

- 260-300 model with high-output Isuzu turbo diesel engine
- Smooth and reliable Allison automatic transmission for effortless driving
- 6x4 configuration for superior traction and payload capability
- Heavy-duty chassis ready for multiple body applications
- Advanced safety systems to protect driver and load
- Ergonomic cab design with excellent visibility and comfort
- Durable suspension suited to demanding job sites
- Low maintenance design for reduced downtime and costs

Built for Business The FVZ 260-300 Automatic is purpose-built for industries that require strength and versatility:

- Tipper and quarry operations
- Civil and construction projects
- Concrete agitator applications
- Hooklift and waste management
- Bulk freight and transport
- Council and infrastructure services

This is a truck designed to improve productivity, reduce driver fatigue and deliver consistent results day after day.
