Description

SEM HIRE Contact us for further information on availability and rates 1800 SEM HIRE bookings@semhire.com.au ---------- The Morooka MST80CR is a heavy-duty rotating rubber tracked crawler carrier designed for transporting and accurately dumping materials across soft, steep, muddy, and difficult terrain. Featuring a 360-degree rotating dump body, 8,000 kg payload capacity, hydrostatic transmission, and travel speeds up to 11 km/h, it delivers excellent traction, stability, and efficient material placement without repositioning. Wide low-ground-pressure rubber tracks provide superior flotation and reduced ground disturbance, making it ideal for civil construction, mining, forestry, and pipeline applications where conventional wheeled dump trucks cannot operate effectively. ----------
