Description

Komatsu D21A-7 Japanese manufactured. 40 HP Komatsu Diesel engine. Low hours. Nice little machine for someone who has a small to medium farm property and wants to put in their own improvements or a residential civil contractor that needs to work around tight spaces. Acreage workhorse. Gumtrees (4-12") and lantana are no problem, depending on work conditions and tree species. This is the Power Shift Transmission / Hydrostatic model – allows shifting without using a clutch. There is still a clutch if you need it for close in work. It also has full joystick pilot controls. This provides a more open cab design than the direct drive models and allows for much faster operation. . 2003 Year Model . 2530 Hours . 6 Way Blade . NEW Steel Canopy . NEW Heavy Duty Rippers - specifically designed for this machine to give maximum depth . NEW Tracks & Chains (was previously fitted with rubber tracks as it was a civil machine) . Tree Spear & Stick Rake Available . General Workshop Check & Service Included . Digital Spare Parts Manual Included (parts readily available through Komatsu Australia) Due to staff shortages, inspections are by prior arrangement only
