_____ DWL Machinery is a liquidation and clearance company who sell direct to the public. Most of our plant and machinery comes direct from Government departments, the Australia Defence Force, local councils, fleet & leasing companies, bank & finance matters We are a bucket and attachment dealer for excavators and skid steers including your favourite brands like FAE, Digga, Norm engineering, Sureweld, Auger Torque and ABS. _____ Selecting the Premier Skid Steer Mulcher for Australian Conditions - Are you seeking a skid steer mulcher capable of efficiently managing wood up to 8 cm in diameter? Look to the PMM/SSL series. Engineered for skid steers ranging from 65-100 hp, this lineup features working widths of 1.8-2 m and offers the choice between hammers or blades for versatile application. Its larger roller, in comparison to competing models, ensures consistent shredding across all conditions. The inclusion of a self-leveling attachment plate with a floating system ensures superior ground contact and performance. For those operating skid steers in the 40-70 hp bracket, requiring the capability to process material up to 12 cm in diameter with fixed teeth, the DML/SSL and DML/SSL/VT series present an ideal solution. These series provide four models with working widths ranging from 1.5-1.7 m. The VT models, equipped with a variable torque piston engine offering variable displacement, leverage the full potential of your skid steer's hydraulic system for peak efficiency. For more demanding shredding tasks, suitable for 75-120 hp skid steers that need to address woody material up to 20 cm in diameter while ensuring even distribution and integration into the soil, the UML/SSL/VT and UML/SSL/SONIC series stand as the definitive choice. With working widths between 1.6 to 1.8 m, these models are configurable with various teeth and rotors to fine-tune performance based on material type. Please copy and paste these links to your browser to see all these models put to work DML/SSL - https://youtu.be/C9Fj2uVb8wk BL4/SSL - https://youtu.be/icjb_uax44U BL1/SSL - https://youtu.be/b0_I97kiBDA UML/SSL - https://youtu.be/MRrzQSBKo4I Select models are enhanced with FAE's exclusive Sonic Technology. This intelligent system ensures seamless alignment between the skid steer and the FAE mulcher, automatically adjusting the mulcher's settings. It significantly increases productivity by up to 30%, minimizes rotor stalling, and reduces recovery time by quickly restoring rotor rpm. Identify the skid steer mulcher series that best fits your operational requirements and elevate your efficiency with FAE's advanced solutions. Contact us to explore your options and identify the ideal match for your skid steer. What's the Damage for an FAE Forestry Mulcher for Skid Steers? For the performance and dependability you get, an FAE forestry mulcher for skid steers is a solid investment. Drop us a line for a tailored quote. Skid Steer Mulcher: Putting it to Work FAE forestry mulchers for skid steers excel across a broad spectrum of applications, serving an array of industries and tasks with unparalleled efficiency. From forestry management to maintenance of power lines and oil and gas rights of way, upkeep of vineyards and orchards, maintenance of green spaces, stump shredding, and fire prevention, FAE forestry mulchers for skid steers are an indispensable tool. They are also ideally suited for the maintenance of green areas in commercial and residential settings, sports facilities, and forestry environments. _____ We are a bucket and attachment dealer for excavators and skid steers including your favourite brands like FAE, Digga, Norm engineering, Sureweld, Brian James Trailers, Auger Torque and ABS. - Accepted payment methods: Internet transfer, cheque, cash, Paypal or credit card. Please note Paypal or credit card payments incur a 2% surcharge Feel free to contact Andrew from DWL Machinery on 0401873538 for any further questions about machinery, finance, trade-ins, attachments and delivery DWLSSL
