Description

Stone crusher for tractors with fixed teeth rotor. The STCH (Stone Crusher Heavy) is FAE GROUPs crowning achievement in terms of stone crushers for tractors. This well-know model that is particularly suited for agricultural projects, land reclamation and maintenance of gravel roads, has now been upgraded with increased power to suit tractors from 280 to 400 HP. The new STCH has a maximum operating depth of 25cm / 10 and is capable of crushing stones up to 50cm / 20 in diameter. Among the main technical innovations there is the hydraulic counter blade that can be adjusted directly from the tractors cab, the oversized door and interchangeable internal Hardox protections. It is also equipped with a new side scraping teeth system to limit side wear, adjustable skids, as well as interchangeable protection chains. The three models available (STCH 200, STCH 225, STCH 250) make it perfect for different jobs, particularly to work land with large quantities of loose stones. The standard equipment includes: -hydraulic rear hood -bolt-on inner wear plates in Hardox -enclosed machine body -centralized greasing hub -bolt-on internal side wear plates in Hardox -bolt-on double row protection chains -belts transmission -gearbox with freewheel -PTO shaft -side PTO with Cam Clutch -bolt-on rotos shafts (in forget steel) -hydraulic adjustable counter-blade in Hardox -bolt-on adjustable skid with bolt-on wear plates in Hardox -bolt-on penetration skids DWL Machinery is a liquidation and clearance company who sell direct to the public. Most of our plant and machinery comes direct from Government departments, the Australia Defence Force, local councils, fleet & leasing companies, bank & finance matters. We are a bucket and attachment dealer for excavators and skid steers including your favourite brands like FAE, Digga, Norm engineering, Sureweld, Auger Torque and ABS. -Australia wide delivery and International shipping simply send us your location for a quote.
